-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendment

The following is placed in effect in view of the amendment filed 25 August 2005.

The rejection of claim 23 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, is hereby expressly withdrawn in view of the cancellation of claim 23.

The objection of claim 23 under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim is hereby expressly withdrawn in view of the cancellation of claim 23.

The provisional rejection of claims 1-23 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending Application No. 10/763,385, is hereby expressly withdrawn in view of the filing of the Terminal Disclaimer of 25 August 2005.

The provisional rejection of claims 1-6 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of copending Application No. 10/647,379, is hereby expressly withdrawn.

The rejection of claims 1-6 under 35 U.S.C. 102(e) as being anticipated by Katagiri et al (US 2004/0044171 A1), is hereby expressly withdrawn.

The rejection of claims 1-6 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Ueno et al (US 2005/0054811 A1), is hereby expressly withdrawn.

Art Unit: 1711

The rejection of claims 1-6 under 35 U.S.C. 102(e) as being clearly anticipated by Kometani et al, is hereby expressly withdrawn.

The rejection of claims 1-5 under 35 U.S.C. 102(e) as being clearly anticipated by Suenaga et al, is hereby expressly withdrawn.

The following rejection is being maintained.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-22 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-19 of copending Application No. 10/799,710. Although the conflicting claims are not identical, they are not patentably distinct from each other because the copending application is drawn to a resin composition which may embrace the resin, film, laminate and the process of making the film as claimed herein. Further, the manipulation of solvent in the

Art Unit: 1711

composition would determine whether a liquid or a paste composition would be produced.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Response to Arguments

Applicant's arguments with respect to the rejections and objection, as noted above, have been fully considered and are persuasive. The rejections and objection of the claims under the grounds pointed out above have been withdrawn.

With respect to applicant's arguments filed 25 August 2005 have been fully considered but they are not persuasive. A Terminal Disclaimer is necessary to overcome the obviousness-type double patenting rejection being maintained.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

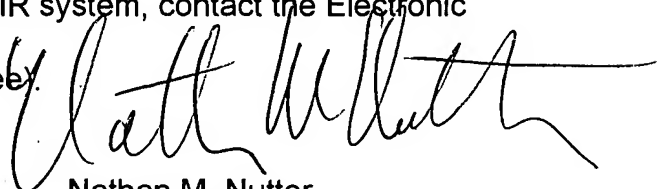

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
